Global Canopy Programme

Actor

Type NGO

Level International

Active Yes

Summary

The GCP is a tropical forest think-tank working to demonstrate the scientific, political and business case for safeguarding forests as natural capital that underpins water, food, energy, health and climate security for all.

We work through our international networks - of forest communities, science experts, policymakers, and finance and corporate leaders - to gather evidence, spark insight, and catalyse action to halt forest loss and improve human livelihoods dependent on forests.
