Size: 2.34 MB

Summary

This report captures the findings from a gender analysis conducted to identify shortcomings in empowering women and integrating gender into the Lam Dong Provincial REDD+ Action Plan (PRAP) in Vietnam, and provides specific recommendations to promote gender integration into the PRAP. USAID LEAF and the UN-REDD Programme have worked with parties involved in this process to ensure that gender equality, which is a core component of the REDD+ negotiation process under the United Nations Framework Convention on Climate Change (UNFCCC), is addressed in the PRAP.
