## Summary

The United Nations Framework Convention on Climate Change (UNFCCC) defines safeguards for REDD+ in Decision 1/CP.16 made in Copenhagen in 2010. Decision 1/CP.17 (Durban, 2011) reaffirms the importance of REDD+ safeguards and requests all developing countries undertaking REDD+ actions to report against the safeguards in the future. They address a broad range of social and environmental concerns ranging from biodiversity conservation to forest people's rights together with the goals to avoid displacement of emissions and reversals of emissions reductions.
